ENJOYMENT UNLIMITED

AGES 6 TO 106

Designed for those who demand nothing less than the ultimate in rugged, powerful, safe, dependable enjoyment

So safe and simple to operate that six-year-olds can make this car perform like seasoned veterans

Designed with Dad in mind, too

A practical, functional, gasoline powered midget auto handy for many utility and industrial uses or just plain fun

Any supermarket parking lot, vacant lot, or race track will give you many, many hours of enjoyment

Many weekend racing clubs are being formed throughout the country today so why not get together with your friends and neighbors for some real economical safe exciting enjoyment now

Engineered for safe, economical, rugged service. Because of its wide tread width and wheelbase this car has a very low center of gravity assuring good cornering and handling characteristics, coupled with its sturdy all welded tubular construction and dependable 2½ H.P. Lauson engine you have an unbeatable combination for many, many hours of just pure safe, pleasure, fun and enjoyment

Pressweld Inc. Alliance, Ohio

THIS ALL NEW CAR is also available in DO-IT-YOURSELF kit form for a marvelous father-child project.

Assembly of components can be done in a matter of a few evenings without the use of special tools. All welding is performed at the factory for your convenience, and to assure you the best possible results.

Check your local dealer for prices on kits, parts and accessories.

At one glance you can tell the rugged trouble free construction of this all new PRESSWELD car Model A built with but one idea in mind to create the finest, fastest, safest car of its kind at a price you can afford.

Test drive this little jewel at your dealer's showroom, and treat yourself to one of America's fastest growing sports.
